A New Product Introduction from Smith Micro Software, Inc.

Announcing Anonymizer Anonymous Surfing Platinum
Protection Beyond Your Anti-Virus and Firewall Programs!

Special Offer ONLY
\$23.96

That's OVER 50% off the regular retail price of \$49.99!

Are You in Danger of Identity Theft?

In 2005, the FTC reported that 46 percent of all fraud complaints were Internet-related. Today's Spyware is designed to silently steal your financial information without alerting you of its presence. Spyware can detect your email and IP address, passwords, credit card numbers, Internet surfing history, and even keystrokes. **Avoid becoming a statistic and protect your identity today with our newest product, Anonymizer Anonymous Surfing Platinum!**

Anonymous Surfing protects you and your family from online identity theft by keeping your IP address private. Thieves can't steal what they can't see.

Anonymous Surfing uses a 128-bit patented "Surfing Security" SSL encryption for "set it and forget it" protection. Protect your personal, family, and financial information from unauthorized access.

Your real IP address is private, making you invisible to thieves and observers!

Anonymous Surfing Platinum Gives You Unrivaled Protection Online!

Identity Protection

- Encrypts your Internet connection
- High-speed IP Masking
- Routes through proprietary hubs
- Blocks personal information
- Encrypted wireless security

Spam, Spyware, Phishing & Pharming

- Removes spyware to military standards
- Full-time staff researching threats
- Anonymous, disposable email
- Six spam-blocking engines
- Updated spyware definitions
- Phishing protection
